- Windows 7 and later, Vista, XP (Service Pack 3 or higher), Server 2008
- Amazon Kindle Fire

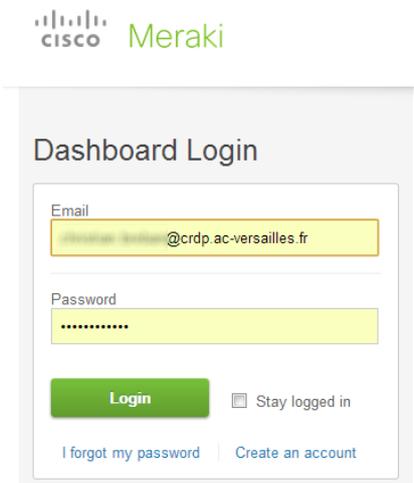

Se connecter sur <http://meraki.cisco.com/>

Créer un compte ou utiliser votre compte préalablement créé.

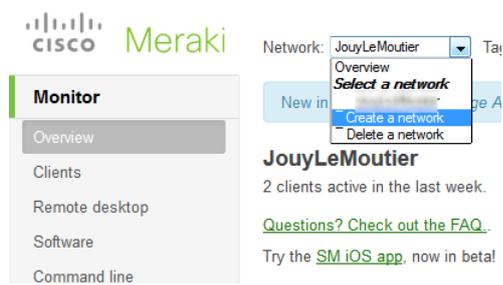

The screenshot shows the 'Create a new Meraki Dashboard account' form. It includes fields for Email, Full Name (with a yellow highlight), Password (with a yellow highlight), Confirm password, Company, and Address (with a default address: 660 Alabama St., San Francisco, CA 94110 USA). A CAPTCHA image shows the numbers '5943R' and '23450'. Below the CAPTCHA is a 'Create account' button.

Se connecter :

The screenshot shows the 'Dashboard Login' form. It includes fields for Email (with a yellow highlight) and Password (with a yellow highlight). Below the fields is a 'Login' button and a checkbox for 'Stay logged in'. At the bottom, there are links for 'I forgot my password' and 'Create an account'.

## Création d'un réseau pour y placer les clients.

Donnez un nom (vous pouvez y entrer les numéros de série des appareils)

### Create network

This is a Pro organization. To upgrade to the Enterprise or Advanced Security editions use the [Upgrade page](#).

Name:

Network type:  Wireless  
 Systems Manager

Configuration:  Use default  
 Clone from network

Devices: Add devices from your organization's inventory or add them using their serial/order number.  
Enter one or more serial/order numbers (one per row). [Where can I find these numbers?](#)

<input type="text"/>	<input type="button" value="Claim"/>
----------------------	--------------------------------------

### Ajout d'un client (Enrollment)

On peut ajouter à la flotte des appareils IOS, Android ou Mac.

Pour IOS vous devez d'abord obtenir un « Apple Push Certificate » il est à créer à l'adresse :

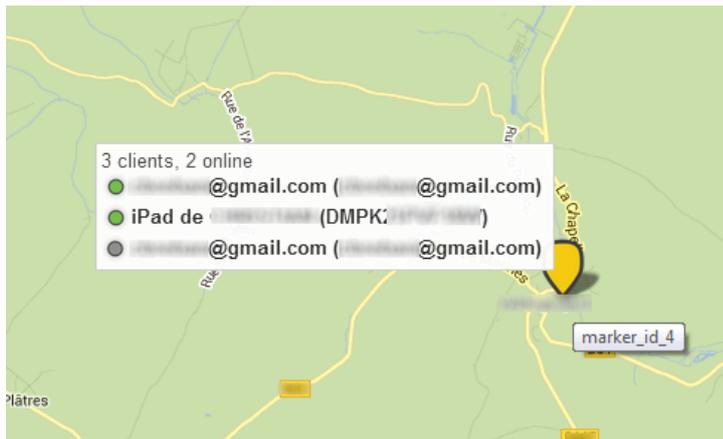

<https://identity.apple.com/pushcert/>

La page d'explication est ici :

[https://kb.meraki.com/knowledge\\_base/renewing-an-apple-mdm-push-certificate](https://kb.meraki.com/knowledge_base/renewing-an-apple-mdm-push-certificate)
